

13 MORE HOMERS IN BIG CIRCUIT

(Continued from preceding page).

Pittsburgh Wins.
Chicago, April 21.—Eight home runs, one less than the world's record of 29 years ago, were made in the final game between Chicago and Pittsburgh yesterday. Chicago winning, 13 to 11, when Leo Hartnett, recruit catcher, slammed out his second homer and crossed the plate with the winning run in the ninth.

The Cubs made six of the homers, while the Pirates gathered two. The record for home runs by two clubs in a game was made by Cincinnati and Boston in 1894, when the Braves made five and the Reds four.

Ruth the Hero.
New York, April 21.—A stirring ninth inning rally in which Ruth again took the hero's roll yesterday, enabled the Yankees to make it three straight from Boston by a score of 4 to 3. Ruth, up in the ninth with the bases full, one out and New York needing one run for a tie, hit far over Center Fielder Collins' head, scoring Haines and Witt.

What happens if a fielder prevents a runner from reaching a base by obstructing his progress?
The base runner is entitled to that base.
"Bobby" Reimer of this city cut another nick in his gustock last night when he was returned the winner over "Kid" Vincent of Springfield at Holyoke. Reimer clearly outpointed his opponent.
We do enjoy watching old Ty. Yesterday the famous Tiger eluded three safe ones in four attempts.

Speaking of Sports

When a fancy swimmer lands on his tummy his dive falls flat.

Just keep your eyes on Summa, Cleveland's right fielder. Three hits in five times up Thursday. Tris Speaker says he looks the best of any who have broken into the big show since Ty Cobb.

A record of more than passing mention was made in the American league last year that went practically unnoticed.

Batting feats caught the eye in the 1922 campaign. The fans were curious as to who would be the home-run king, would Ruth overcome the big handicap imposed on him, would Cobb catch Slater and could Roger Hornsby, again show the way in the Nationals?

With all this excitement over the batting end of the game it is not to be wondered that the fielding stunts failed to cause any great thrills.

Once upon a time triple plays were a rarity, but like home runs they were a bit common last season.

Seven triple plays were made in the American league. This bit of par excellence in fielding ties the National league in that respect.

In 1910 the National league set a record at seven triple plays for a season. Twelve years later the American league equals it.

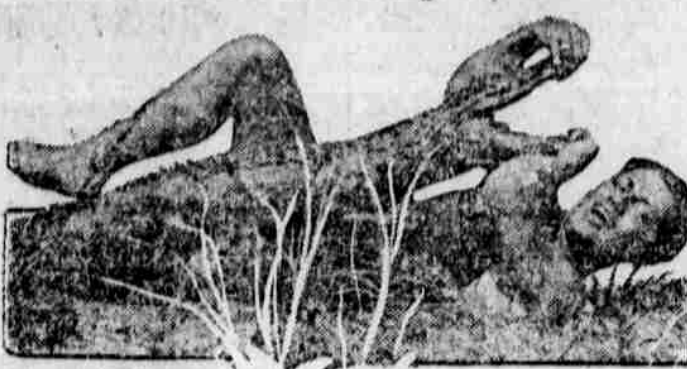

What is an illegally batted ball?
A ball batted by the batsman with one or both feet outside the lines of the batsman's position.

Can a batsman take his base if hit by a slowly pitched ball?
The degree of speed is given no consideration, if in the opinion of the umpire the batsman tried to avoid being hit.

Has a base runner the right to steal on a foul tip that is caught?
The base runner certainly has such right.

If a fair ball strike the umpire on foul ground what happens?
The ball is considered in play at such a time.

A Gentle Wrestling Partner

N. D. Gallup of Baltimore, Md., engages his pet alligator in a wrestling bout at Miami, Fla., but it's hardly catch-as-catch-can.

Also, it begins to look as though the grown up Babe is going to be quite as good a ball player as the Babe Ruth of a few seasons ago.

Charlie Paddock, world's record holder in the sprints, sailed for France yesterday. He's quite peeved at the A. A. U., refusing to let him run in France and says that if his French hosts insist on his showing his wares over there he shall do so.

Frazee's share of the Yankee-Red Sox gate receipts is likely to exceed \$40,000. In New York the visiting club gets 34 cents for every paid admission. At the opener \$8,000 paid.

What happens if a fielder prevents a runner from reaching a base by obstructing his progress?
The base runner is entitled to that base.

Thursday 12,000 paid, yesterday there was about an equal number and today upwards of 40,000 are expected.
The price tag doesn't mean much. Bently, the \$65,000 pitching recruit of the Giants, was humiliated yesterday 9 to 2, by Joe Genewich, who, as far as we know, cost Boston only two cents, and that was for postage telling him to report.
Hartnett whose second homer won for Chicago yesterday, is a former Worcester backstop.
Benny Leonard is slowly but surely rounding into shape. He ought to board a French liner.
Every team in the National now has tested defeat, while in the American the Yanks, Phillies and Cleveland have yet to get the small end of a score.

JEWETT SIX PAIGE BUILT \$1065 f.o.b. factory

A Husky Frame for the Sturdy Jewett

HERE is a frame six solid inches deep, with top flange correspondingly wide. It is a unit of tremendous strength, reinforced by in-built corner braces in front and four sturdy cross-members. This staunch construction frees the Jewett from any possible misalignment of working parts—gives unlimited endurance, genuine riding comfort.

Jewett's balanced weight and husky frame do much to give it a road motion that is steady and restful. And here's a car that doesn't need nursing over bad spots. Its 2805-pound weight holds the road—its fifty horsepower motor does the rest. Let us put a Jewett through its paces for you. Whenever you say. No obligation.

15,000 Miles!
Oakland's special steel alloy (non-burning) valves function perfectly for at least 15,000 miles without grinding! Average valves need grinding every 5,000 miles!

15,000 Miles!
For 15 months, Oakland's engine has carried a written 15,000 mile guarantee against excess oil in the combustion chamber—proof of superior construction!

40,000 Miles!
Oakland's costly, patented, bronze-backed crankshaft bearings, accurately fitted, require no attention short of 40,000 miles. Connecting rod bearings give similar service.

The Inside Reason for Oakland's Success—Known Mileage

After all, the success of a car depends upon the success of its engine. If ever a manufacturer set about deliberately to build the finest light-six engine that could be built—Oakland did. It built an engine so good that it can give you a definite gauge for estimating the minimum number of miles the essential parts will deliver—free from trouble or expense!
